

THE TRICKSTER'S RING

„An ordinary ring created by a priestess who was one of the most faithful and fanatical followers of her God at that time. She gave the ring to her beloved God, known as the Trickster. He took the ring, put it on his finger and never took it off again. It was the simplicity of the ring that he loved so much. The ring became one of the most important symbols of the Trickster and his followers hence called the ring „The Trickster's Ring“.

- Extract from the book „The Legend of the Trickster's Ring“

The *Trickster's Ring* was a gift from the priestess, Yalandaré Mwandaryé, to her God, the Trickster. Although the ring looked nothing special and seemed to be an ordinary object, the Trickster realized its true worth immediately. The Trickster presented the ring in a special way, so the object became one of his most important symbols, and his followers gave the ring its name, by which it is known from today: The *Trickster's Ring*.

By being given a name and the close bond with the Trickster, the ring grew into a magical item. After the collapse of the clerical center, now known as „The Forbidden City“, the ring got lost. To this day there is no trace of the ring, although some people have been telling tales that they have seen the object.

ABILITIES

According to the lore, the *Trickster's Ring* is filled with the Trickster's power. Everyone who is wearing the ring will be able to wield this power. However, there are some indifferences in the object's description, as the ring is not a mundane object and looks very special indeed. It is gemmed with precious stones and has a golden aspect, which the Trickster himself has added to it. There is also an indication of its divine aura.

Attunement. The ring bearer must wear the *Trickster's Ring* on a finger for at least one day.

Activation. To activate the *Trickster's Ring*, it must be turned 360° around the ring bearer's finger. This action counts as a bonus action. It can be activated up to three times. After that, a long rest is required.

Healing effect. When the ring is activated, the ring bearer immediately gains 1d6 + character level HP.

Burnout. With every activation there is a 5 % chance (non-cumulative) that the *Trickster's Ring* burns out. In this case, the object immediately loses all of its magical power as well as its special aspect. Henceforward, the ring looks ordinary and counts as a normal ring. A reactivation is not possible.
